01 PROFILE

Software engineer and UI/UX designer with a B.S. in Computer Science. I design interfaces in Figma and build them in Laravel, PHP and React, and at CloudSP I also run the monitoring that keeps a licensed ISP's network visible. Three years in, with 5+ client projects shipped end to end, I design the failure states first because those are the moments people remember.

02 EXPERIENCE

May 2025 - Present • Full-time • Jdeideh, Lebanon

Web Developer & Network Specialist • CloudSP

Building both sides of a licensed ISP: the monitoring that watches its backbone, and the web tools and website on top of it.

- Architected ISP-wide traffic monitoring with Grafana, Prometheus and Zabbix, using sFlow and iptop for real-time Layer 7 analysis of backbone and peering traffic.
- Built a central single sign-on portal with Laravel Passport that unifies access to the internal infrastructure tools, alongside web apps in Laravel, Node.js and Python.
- Automated large-scale NetFlow log recovery with Bash and Python, with integrity checks and automatic sync to QNAP NAS storage.
- Designed the company's website, interfaces and marketing visuals in Figma, Photoshop and Canva around its "Unlimited Connectivity" brand.
- Migrated and deployed the monitoring stack on Ubuntu servers, managing PHP 8.2, Apache and Composer.
- Led version control and project management on GitHub, with clean, documented code for cross-functional infrastructure teams.

2024 - Present • Freelance • Remote

Freelance Designer & Developer • EB Web Solutions

Designing and building websites end to end for clients across consultancy, retail and food science.

- Global Product Solutions (2024): a WordPress site for a commercial-agency and industrial consultancy.
- LinkCell (2024): a WordPress and WooCommerce showcase for a mobile-accessories brand.
- Saliba Consultancy (2026): a hand-built static site for a dietitian and food-safety consultant.

Apr 2024 - Nov 2025 • Full-time • Lebanon

Junior Web Developer • Yellow Tech Dev

Built Laravel web applications end to end for agency clients.

- Designed and delivered 5+ client projects end to end, consistently ahead of schedule.
- Contributed to the development and optimisation of a point-of-sale (POS) system that businesses relied on day to day.
- Partnered with the graphic design team so visuals shipped exactly as designed and on brand.
- Built scalable, user-centred web applications on the Laravel framework.
- Used GitHub for version control and agile project management across the team.
- Wrote clean, documented code and proposed process improvements.

Web Developer Intern • Yellow Tech Dev

Went from customising WordPress to building in Laravel.

- Made pages load 20% faster by optimising MySQL queries in database-driven PHP applications.
- Built and customised responsive themes and plugins for 5+ websites.
- Built interactive interfaces in HTML, CSS and JavaScript.
- Helped build secure, scalable backends in Laravel, collaborating through Git and GitHub.

03 SKILLS

Design

UI/UX design • Figma • Adobe Suite • Canva • Responsive design • Brand & marketing visuals

Backend

Laravel & PHP • Node.js • Python • C# & Java • MySQL, PostgreSQL & SQLite • SSO with Laravel Passport

Frontend

HTML, CSS & JavaScript • React • Tailwind CSS • Bootstrap • WordPress & Elementor • WooCommerce & Shopify

Infrastructure

Grafana, Prometheus & Node Exporter • Zabbix • sFlow & NetFlow • Ubuntu, Apache & Bash • Linux, Windows & macOS • Git, GitHub & GitLab

04 EDUCATION

B.S. in Computer Science

Arab Open University, Antelias • 2025

High School Diploma in Life Sciences, with high distinction

Antelias Official High School • 2021

05 CERTIFICATIONS

React – The Complete Guide 2025 (incl. Next.js, Redux)

Academind • Maximilian Schwarzmüller • Sep 2025

APTIS English Certificate, Level C

British Council • Jan 2025

APTIS English Certificate, Level C

British Council • Sep 2021

06 LANGUAGES

Arabic

Native

French

Bilingual proficiency

English

College proficiency

07 VOLUNTEERING

Red Cross • Volunteer

Sep 2021 – Oct 2023

Church organisations • Active member

2013 – 2025

08 STRENGTHS

Problem solving • Communication & teamwork • Attention to detail • Adaptability • Time management • Continuous learning • Creativity • Multitasking

Interests

UI/UX design trends • Web app development • Learning new languages and frameworks
